

The Civil Rights Project is hiring an Education Policy (DATA) Analyst!

The Civil Rights Project, in the UCLA School of Education and Information Studies, is looking for a new colleague who aspires to work in an immersive data and academic research environment. The **Education Policy (DATA) Analyst** will play a significant role in long-term education research projects, work in close collaboration with project leaders and colleagues (internal and external), and analyze quantitative data to generate findings for research reports and policy briefs.

The **Education Policy (DATA) Analyst** will collaborate on projects that analyze educational equity and opportunity indicators, examining a broad set of demographic, education, and economic quantitative data sources. Indicators include: patterns of racial, socioeconomic and linguistic isolation in the nation's schools and neighborhoods; academic achievement and graduation rates; implementation of desegregation policies; the efficacy of race neutral and race-conscious student assignment plans; school-level factors; school finance; dual language education, college access, and others.

The **Education Policy (DATA) Analyst** may elect to work remotely and at the UCLA campus.

Qualifications:

1. Strong knowledge of K-12 in public school systems, higher education research, education policy, or related field sufficient to analyze and write documents in a variety of civil rights arenas; knowledge of civil rights law and policy, civil rights issues preferable.
2. Ph.D. or other advanced degree in education, public policy, political science, sociology, economics or a related field and experience in research and advocacy.
3. Demonstrated skill in quantitative and qualitative research related to K-12 and higher education policy; demonstrated ability to carry out data management activities using large-scale structured and unstructured data sets in different contexts.
4. Mine, clean and prune data from primary and secondary sources (National Center for Education Statistics, Common Core of Data, Office for Civil Rights Civil Rights Data Collection, American Community Survey Data); merge different data sets and time periods.
5. Demonstrated skill in preparing, writing and editing research summaries, portions of project reports, and other key documents for publication.
6. Work independently and as part of a team; collaborate with colleagues of different backgrounds.
