## Do-It-Yourself Tax Workshops

### Designed For:

Basic taxpayers with W-2 wages and other items not including business or rental properties

### Course Goals:

The goal of this course is for each student to have an interactive experience learning the ins and outs of basic tax preparation. Each attendee will prepare their own income tax return with the guidance of a CPA

### Objectives:

At the end of the course, attendees will understand:

1. What IRS considers to be income
2. What IRS allows as deductions and credits
3. What Ohio allows as deductions and credits
4. If and to whom they need to pay City income taxes
5. How to navigate tax software
6. How to prepare their own tax return
7. How much income tax they pay between Federal, State, and City
