

## CASH Webinar

### Communications: Parents, Students, Employees and Community

Thursday, June 4, 2020

#### MEMORANDUM

To: CASH Members

Date: June 5, 2020

From: Julie Arthur, CASH Chair, Palms Springs USD

RE: Questions from the Chat Box of June 4, 2020 Webinar #11: **Communications: Parents, Students, Employees and Community**

Attached are the questions and comments from the Chat Box of the June 4, 2020 CASH Webinar. The Webinar will be available for viewing or listening on the CASH Website for our members that missed it or for those interested in viewing or listening again.

---

09:59:34 From Samantha Campbell : Good morning everyone - thank you for joining us today!

10:02:03 From Samantha Campbell : All Webinar materials from today, including the recording, PPT, and Chat Box discussion, will be emailed to all registered attendees, as well as posted on the CASH COVID-19 Resource Page.

10:52:14 From eileen logue to All panelists : how many thermometers do you recommend for the size of school?

10:53:58 From eileen logue to All panelists : have you explored the use of UV sanitation wands and their efficacy on high touch areas- door knobs, keyboards etc

10:55:55 From Jema Estrella : I've heard the ratio 1:100 (1 thermometer per 100 students but it has not been publicly issued yet. LACOE is communicating about this with LA County Public Health

10:59:16 From eileen logue to All panelists : can teachers and office staff take temperatures to expedite entrance to school- as all staff must have temperature taken as well? this could lead to very long waits ....

11:01:48 From Josh Jorn to All panelists : Depends on your county health officer guidance. We have developed preliminary health check app to have daily health checks prior to entering the school campus. MCOE has done a lot of research on thermometers and our county is not planning on this as a

part of our reopening platform. Too many variables, outside air temp, need to take temp for accuracy indoors, asymptomatic students and staff etc

11:03:02 From Ian Padilla to All panelists : Thank you Jennifer - The CASH Maintenance Network (CMN) is developing a guidebook focused on all the issues you highlighted, as well as distancing and scheduling. It is currently being edited and will be available to all very soon. .

11:06:22 From Sam CASH Staff : From Ian Padilla, CASH: The CASH Maintenance Network (CMN) is developing a guidebook focused on all the issues you highlighted, as well as distancing and scheduling. It is currently being edited and will be available to all very soon.

11:08:33 From Meghan Russell to All panelists : from talking to other parents we are feeling left in the dark re what options are on the table and how decisions are being made

11:08:35 From Marijke Smit to All panelists : Agree with all being said. We need to also focus on staff communications and staff/teacher surveys given that we need them to feel safe and heard above all.

11:09:12 From Meghan Russell to All panelists : while I'm on these statewide CASH calls (THANK YOU for these) most parents are not

11:10:05 From eileen logue to All panelists : thank you

11:51:23 From Reese Thompson - Santa Maria High School District to All panelists : Doesn't the word "Grant" imply competition between schools for the money and another administrative department in Sacramento to administer all of the money? The smaller school districts do not necessarily have the resources to compete for these grants.

11:55:04 From Rebekah Cearley : We had a question in the chat about how grant funds will be administered. For the proposed \$100 m School Re-Opening Block Grant, it would be distributed to LEAs on a per-ADA basis. The term "grant" refers to flexibility in the use of the funds, as long as they are used within the parameters of the law (which we still need to see in writing).

11:56:17 From Rebekah Cearley to All panelists : Hi team, I need to sign off for another presentation. Thanks for your dedication to sharing your expertise!

11:56:43 From Sam CASH Staff to All panelists : Thank you Rebekah!!

11:56:48 From Jema Estrella to All panelists : Take care Rebekah. Thx for all your help.

11:57:43 From Jennifer Schwinn to All panelists : What cleaning products are you using that provide on-going disinfection, beyond initial use?

11:58:58 From eileen logue to All panelists : What about UV sanitation wands or lights?

11:59:35 From Jennifer Schwinn to All panelists : Have you experimented with steam cleaners and no disinfectant, steam only? i heard that works and is safer.

12:01:02 From Jennifer Schwinn to All panelists : I have to go to another training. Will you post chat questions and answers?

12:02:36 From eileen logue to All panelists : more outdoor classroom spaces and high ventilation- with sky lights - moveable walls

12:03:10 From Sam CASH Staff : Hi All - a reminder that all Webinar materials from today, including the recording, PPT, and Chat Box discussion, will be emailed to all registered attendees, as well as posted on the CASH COVID-19 Resource Page. Thank you.

12:05:36 From JG5399 to All panelists : WE can't hear him

12:08:52 From Sam CASH Staff : We appreciate your patience while we work through this glitch. Thank you!

12:13:42 From Alan Reising : @ Jennifer - These products use 'Nano' block technology that provide an micro organic coating that disrupts the outer walls of a virus/bacteria which effective kills the organism. It does this without chemicals and is not classified as a 'disinfectant' by EPA or DPR. The coating is non-sacrificial and claims to continue to provide protection for up to 90 days.

12:15:15 From Alan Reising : @Eileen - We have not materially examined UV technology. The concern with UV is that it still requires continued re-application in order to be effective.

12:17:45 From Alan Reising : @ Jennifer - Steam may be problematic on classroom furniture, equipment, etc. It might be a solution for outdoor (robust) equipment, but I would be very concerned about damage to buildings. You may introduce mold causing moisture.

12:25:10 From Sam CASH Staff : Thank you all!!
