## WEEKLY UPDATE

November 2, 2022

### COMPLETING YOUR INDIVIDUAL DEVELOPMENT PLAN

As reported in Campus Connections, the next step in the performance evaluation process is the Individual Development Plan (IDP). An Individual Development Plan (IDP) is a plan to help employees reach the goals determined during the performance evaluation process. This plan will help employees stay on track with their goals. All self-raters will meet with their evaluators to discuss the IDP.

**Click here** to find the IDP form, as well as a training video that will help you understand the form as a self-rater. These materials can also be found in the Performance Review folder on the home screen of all Mis devices.

**Pictured:** The Performance Review folder found on the home screen of every Misericordia device. To find the self-rater IDP form click the icon > click the Self-Rater folder.

### MASK USAGE & COMMUNITY TRANSMISSION PROCESS

#### Community Trans. Masking Guide

**orange - substantial**  
Surgical mask recommended / Surgical or N95/KN95 required for McAuley

**yellow - moderate**  
Surgical mask optional / Surgical or N95/KN95 required for McAuley

**blue- low**  
Surgical mask optional / Surgical or N95/KN95 required for McAuley

Effective Monday, November 7th, all areas will practice an updated Community Transmission Process, as directed below:

- The community transmission level is updated every Monday by the CDC. The Monday AM Thome receptionist will check the Community Transmission Level by 7 AM and put up the appropriate posting with the current date.
- The receptionist will then send out a page to all campus pagers regarding the current Community Transmission Rate and the appropriate mask usage.
- Supervisors are responsible for notifying their staff and updating the posting in their designated area.
- Covid outbreaks within a cohort supersede Community Transmission Rates. In the event of an outbreak within a cohort, staff must wear N95/KN95 masks and visitations will be limited.
- If an individual has a cough, congestion, or runny nose and is Covid negative, we ask that they still wear a mask as source control.

For more details, **click here** to review our Transmission Level Cheatsheet, which outlines required mask usage and visitation guidance per Community Transmission Level.

### THE ANNUAL VIRTUAL TRAINING EXPO RUNS THROUGH NOVEMBER 16TH
