

We are looking for "buddies" to spend some time with individual service men and women who travel to Los Angeles for treatment at UCLA. Most of them do not have friends or family in the area. During their stay in Westwood, they have free time, but not the resources or social connections to spend that time constructively. Operation Mend seeks friendly and thoughtful (mostly) men and women to reach out to these patients and take them out for a walk on the beach, a simple lunch, or other such low key and enjoyable activities of mutual interest.

Time commitment can range from an occasional or one time meet up to a more enduring relationship -- it's all up to you.

For further information about Operation Mend visit:
