ABOUT HAITI

The Republic of Haiti shares the island of Hispaniola with the Dominican Republic. It is the second largest island in the Caribbean.

- Population **10,980,000**
- Life Expectancy, **62 years**
- Literacy Rate, **49%**
- Access to Safe Water, rural, **51%**
- Undernourished, **45%**
- School Enrollment, **50%**
- Average Annual Income (GNI), **\$700**

FAST FACTS

- Haiti is the least-developed country in the Western Hemisphere and one of the poorest in the world. About 80% of the population lives below the poverty line.
- The World Food Program estimates that about 2.4 million Haitians cannot afford the recommended minimum daily calories.
- Currently, the majority of Haitians lack access to quality education; a prerequisite for sustained social and economic development. Despite improvements in enrollment and the commitment of the Haitian government to strengthening public education, much still needs to be done.

**Building
Relationships
Bringing Hope
Transforming
Communities**

... by working *hand in hand* with local communities and churches in the Dominican Republic and Haiti.

Through partnerships with in-country churches and community leaders, FFP invests in long-term projects designed to offer hope and create long-lasting change in a country dealing with pervasive poverty.

Working together. Hand in hand.
