About 101 Introduction to Construction Estimating

❗ 101 Introduction to Construction Estimating is a **self-paced** class that is designed to be the gateway to more complex and trade specific estimating courses.

This online class is designed to help estimators polish their estimating expertise and learn the basic skills that are absolutely required to produce successful construction estimates.

101 Introduction to Construction Estimating is part of **the Certificate in Construction Estimating and Certificate in Construction Practices.**

A **self-paced** course can be started at any time. You must complete the course within 10 weeks, but you can work through the course as quickly as you like.

There are no weekly goals and no interaction with other students.

ROBEX Member: \$550
NON-ROBEX Member: \$750
