

CONFLICT OF INTEREST POLICY AGREEMENT

I HAVE READ AND UNDERSTAND THE Conflict of Interest Policy as outlined in Human Resource Policy and as noted below. While in placement at the Florida United Methodist Children's Home, I agree to abide by the policies and guidelines as stated.

“A conflict of interest is defined as an inconsistency between the interests of a FUMCH employee, Board Trustee or other person affiliated with FUMCH and the interests of FUMCH and the children and youth we serve. This includes transactions between board members, management, staff, consultants, vendors, service providers, community partners, volunteers, and FUMCH. Any actual or perceived conflict of interest between the private interests and official responsibilities of a person in a position of trust within the organization cannot be accepted. It is the responsibility of all Board members and employees and volunteers to fully disclose any actual, possible, or perceived conflicts of interest as soon as discovered. When an actual or perceived conflict exists, the person(s) involved shall not participate in any decision making with regard to the conflicted relationship or activity.”
