Unexpected Blooms Awards Scholarships

Unexpected Blooms today announces a \$5,000 scholarship to Johnson County Community College for their 2026–2027-year Floral Design Certificate Program. The award has been given to 5 recipients based on merit and financial need. The program determined which students received the award.

Unexpected Blooms is a 501 (3c) program that strives to see the beauty and feel the joy by re-purposing donated flowers to local hospice, nursing homes and other care facilities.

Unexpected Blooms has been delivering smiles for 10 years. Originally started in the home of a florist and funeral home director. Recipients of our deliveries remark on how much joy and beauty the flowers bring to their lives.

Unexpected Blooms hopes the scholarship will help those interested in having a career in the floral business. The scholarship will make it easier for those interested individuals to learn a new trade and benefit the community in the future.
