Boswell Engineering Appoints Kevin J. Boswell, P.E. President

South Hackensack, New Jersey – Boswell Engineering's Chief Executive Officer, Dr. Stephen T. Boswell, P.E. and Chairman, Professor Antonio Bevilacqua, are proud to announce Kevin J. Boswell, P.E. has been named the firm's 5th President in its 99 - year history. Kevin began his engineering career with Boswell in 1983 and through the years has demonstrated his ability to develop excellent relationships with employees and clients.

Dr. Boswell and Professor Bevilacqua, are confident Kevin's knowledge of the company, his business acumen, and his successful record of dealing with clients will culminate in Kevin having an exceptional tenure serving as the firm's President. It is evident Kevin's proven leadership capabilities will play a significant role in promoting the firm's continued growth and the delivery of engineering excellence to present and future clients.

Boswell Engineering, is a fully integrated engineering firm providing the design, construction management and project management services associated with roadways and bridges, water/wastewater treatment facilities, sanitary and storm sewer systems, utility and energy projects, and marine/underwater engineering and inspection. Since its founding in 1924 Boswell Engineering continues to play a significant role in the future for federal, state, county and local governmental agencies, and private sector clients.

Boswell Engineering, a wholly-owned subsidiary of Italconsult USA, a company with the international reach of Italconsult S.p.A., a global design, engineering, project management, and architectural consultant, is presently ranked nationally among *Engineering News-Record's (ENR)* Top Design and Construction Management Firms. Boswell Engineering now has greater opportunities to expand its services and client base in the U.S. and worldwide within Italconsult's multi-national structure.
