SOIL CONNECT IS THE EXCLUSIVE DIRT MARKETPLACE OF UTCA OF NJ

SOIL CONNECT is a leading software company that helps contractors track, transport, and acquire soil, aggregates and other building materials. Soil Connect saves our customers tens of thousands of dollars while substantially reducing the construction industry's carbon footprint by minimizing CO2 emissions with several products:

THE MARKETPLACE

Contractors can create a FREE post for materials they need or materials they need to move from a job site. Users receive updates on matches with other contractors via text, phone, e-mail, or in-app.

It's fast, easy, and FREE. Plus, you decide how long to keep the post active. The interactive app makes it simple to see who else has posted and uses geo-mapping technology, so you can easily spot a potential match for material right from your phone, tablet, or desktop.

UTCA-NJ is encouraging all members to download the app and check it out. If enough contractors start using the app, everyone benefits.

UTCA-NJ MEMBERS WILL RECEIVE AN EXCLUSIVE 20% DISCOUNT ON ALL SOIL CONNECT SAAS PRODUCTS.

DIRT ALERT TEXT BLASTS ARE FREE TO ALL UTCA-NJ MEMBERS

eTICKETS SM

The FIRST eTickets platform that is built specifically for contractors and truckers on their job sites to improve efficiency and relieve administrative burdens.
