

Santa's Countdown Calendar

Supplies needed:

Paper trimmer, $\frac{1}{4}$ " hole punch, adhesives

Tips:

- Please open your bag of pieces carefully. The card stock pieces are layered in order from 1-25 with pieces in between.
- You will use some of the large M & M cards as a full card on the calendar.
- You may need to cut up some of your Memories & More (M & M) cards to finish the pages like I did.
- Be mindful of the position of the hole punches. You could punch them before you start. Punch about $\frac{1}{2}$ " from the top and 1" from the sides. I suggest you punch one card and then use that to match up and position the punches on the remaining cards.
- CS is an abbreviation for card stock
- You can add more or use less of the adhesive die-cuts from the M & M kit.
- There are number adhesive die-cuts for each card in the M & M kit.
