Description of Program: see: <https://www.tpsgc-pwgsc.gc.ca/biens-property/peri-pilt/index-eng.html>

QUOTE:**Key Program Features**

Payments made under the Payments in Lieu of Taxes Act are based on the principle of fairness respecting both the taxing authorities and the federal government and are equitable in comparison to those made by other property owners.

Payments are calculated on the basis of values and rates which would, in the opinion of the Minister of Public Works and Government Services, apply to federal property if it were taxable.

Payments respect the property tax due dates established by taxing authorities and supplemental payments reflecting interest charges may be made if payments are late.

The federal government should receive equal access to services provided to other property owners by the host municipality.
