

2021

ACCOMPLISHMENTS

SOUTHERN UTAH BICYCLE ALLIANCE

Helped City of St George pass a Complete Street Policy: policy formalizes the cities commitment to prioritize streets designed for bikers and pedestrians. The City is also hiring an Active Transportation Coordinator.

Worked with local governments directly on the following projects:

- St George: Bluff Street Tunnel, Main Street buffered bike lanes, 400 East buffered bike lanes, participated in temporary bike lane DSU campus - future permanent bike lanes on west side of campus coming soon.
- Washington: advocated for Canal Trail (north/south trail connecting Washington Fields to Sullivan Park). City budgeted \$ to build trail.
- Cedar City: set up SUU's temporary bike lane and worked with UDOT on design of upcoming bike lanes around campus. Also supported the city obtaining funding for separated bike facility along Industrial road to town. Supported multiple community Slow Rolls.
- Springdale: supported and consulted city in establishing an Active Transportation Plan - Plan will be completed in 2022.

Advocated for north/south, east/west separated bike lane: SUBA would like to see each city establish corridors for bikes to safely connect north/south and east/west.

- St George: buffered bike lanes north/south on Main St and 400 East.
- Washington: budgeted for north/south connections via Canal Trail
- Cedar City: city and UDOT building bike lanes east/west along University Bld.

Partnered with many local governments to establish a database of upcoming street projects: the database helps SUBA provide feedback, from cyclists perspective, before streets are built/resurfaced.

Helped Dixie State University obtain "Honorable Mention" as a Bicycle Friendly University: the award required an evaluation of how bikeable campus is, as well as a path moving forward to for the campus to improve bikeability.

Mission: SUBA promotes the infrastructure, policies, attitudes, behaviors, and knowledge necessary to make bicycling safe, convenient, and inviting for residents of and visitors to southern Utah.
